zero2infinity presented bloon in the PURE Life Experiences™ event in Marrakech, which took place in November 2009

bloon was presented during the PURE event in Marrakech, as a new way of near-space exploration. It was introduced as an uplifting experience designed to be one with our home planet. Our founder, Jose Mariano Lopez-Urdiales, has exhibited the bloon concept to a selected group of high-end Travel Designers. As a result, zero2infinity and bloon have had the opportunity to be aligned with some of the foremost companies that operate at the highest levels and with the most significant names in the fascinating sector of Experiential Travel.
